

MEETING THE PROJECT MANAGEMENT CHALLENGE

2004

Biography

Dr. Douglas D. McLennan

Project Manager, Space Technology - 5 - NASA GSFC

Dr. McLennan is the Project Manager for the ST-5 Project at the Goddard Space Flight Center (GSFC) in Greenbelt, Maryland. He is responsible for the design, assembly, integration, and test of the ST-5 flight and ground-support hardware and for the launch activity and on-orbit checkout of the spacecraft.

Dr. McLennan joined Goddard in December of 1988 as an instrument manager for the Earth Observing System (EOS) Project. He was appointed Instrument System Manager for the EOS Instruments Project in 1989 and Observatory Manager for the EOS PM Project in 1991. In December of 1996, Dr. McLennan was appointed the Deputy Project Manager of the Geostationary Operational Environmental Satellite (GOES) Project.

Dr. McLennan received his B.Sc. in Physics in 1978 from Carleton University, Ottawa, Ontario Canada. He received his M.S. in Physics in 1980 and Ph.D. in Physics in 1983 from Georgetown University, Washington D.C.
